FACT SHEET

Managing Health and Safety in Construction: Construction (Design and Management) Regulations 2007

INTRODUCTION

This 1 day course of training will help those 'duty holders' attending understand their responsibilities for managing health and safety, from the concept of the project through to the completion of the build and onto maintenance of the finished structure. It will introduce duty holders to the Construction (Design and Management) Regulations 2007 and outline the responsibilities of the Client, Designer, CDM Coordinator and Principal Contractor and Contractor; and introduce 'practical application' opportunities for compliance.

Course Outline

- Overview of the Regulations
 - Application and Notification
 - Competence, Co-ordination, Communication, Co-operation
 - Duty holders and summary of compliance needs
- **The Client**
 - Who are Clients?
 - Appointments
 - Provision of information
 - Managing arrangements for the project
 - **The CDM Coordinator**
 - Notification
 - Giving advice
 - Co-ordination and Co-operation
 - Information management
 - **The Designer**
 - Who are Designers?
 - What they should do for all projects?
 - Co-operation and co-ordination
 - Hazard elimination and risk reduction

Reg'd Cardiff 1266432

- **The Principal Contractor**
 - Planning, resourcing, managing and monitoring
 - Competence, co-operation, co-ordination, consultation
 - Construction Phase Plan
 - Managing health and safety on construction sites

- **Contractors**
 - Competence, co-operation, co-ordination, consultation
 - Information management (risk dissemination, RIDDOR etc)
 - Planning and managing construction work
 - Compliance with Part 4 and Schedule 2 (construction regulations)

- **The Pre-construction Information Pack**
 - Suggested typical information

- **The Construction Phase plan**
 - Suggested typical information

Benefits of Attending

At the end of the course duty holders will have a clearer understanding of their responsibilities under the CDM Regulations 2007 and how their duties can be met

Course Aims

- Bring duty holders up to date with the CDM 07 Regulations and requirements for the management and organisation of construction sites
- Help duty holders recognise and understand their own safety, health and welfare management responsibilities for projects
- Guide, assist and encourage duty holders to develop their knowledge of practical arrangements for compliance
- Provide examples and opportunities for duty holders to gather knowledge of arrangements for the management of safety, health and welfare
- Assist and encourage course members to develop management techniques and methods for dealing with future safety, health and welfare matters

Who should attend?

The course is suitable for all duty holders who need to increase their knowledge and understanding of the practical arrangements necessary for compliance with the regulations
